I am a highly experienced **Front End** and **Mobile** developer with over 6 years of professional experience in the field. My main expertise revolves around JavaScript, web development and mobile applications.

Software development has always been a passion in my life. I started programming when I was 11 years and have been doing it so since then. I have always been passionate about creating things in this incredible world, and I saw that with technology I could create useful and real things for everyone.

Apart from my programming career, I am a self-taught person passionate about mathematics, philanthropy and things that happen in the world.

## Work Experience

**Front-end Developer**  
UX Technology 06/2024 - 10/2024 | **4 months**

Responsible for developing web applications using React JS & Next JS, focusing on creating efficient and scalable user interfaces. Developed new features to meet project requirements and improve user experience and Conducted code reviews to enforce best development practices and maintain high code quality.

**Software Engineer**  
Sidea Technology 06/2023 - 01/2024 | **9 months**

Responsible for developing mobile application using React Native, Java and Objective-C for managing crypto wallets. Use native languages such as Kotlin and objective-c to create native modules where within React Native there is a certain limitation. For example, feeding background microservices. I worked on Api development using Node JS, PostgreSQL and Express to be run within the app, providing a better user experience using the Mobile-First strategy.

**Mobile Engineer**  
Devmaker 07/2021 - 01/2023 | **1 year & 5 months**

Tasked with the development of mobile applications with Expo (React Naitve) and GraphQL for many clients in Brazil, such as Roit Bank, Ponto Mais, Rightee, and others. Building new systems using React Native (Expo) and creating beautiful interfaces in applications using Tailwind CSS as styles framework.

**Mobile Engineer**  
CRP Tecnologia 03/2021 - 08/2021 | **6 meses**

In charge of building mobile apps for internal company purposes, using Flutter. Building new features and providing maintenance using Dart language.

**Software Programming monitor**  
Federal Institute (FIS) 01/2018 - 01/2020 | **2 years & 1 mon**

I taught programming to the other students in the institute. I could share my skills in web-development and website creation and test.

## Skills

Javascript	HTML	GIT
Typescript	CSS	Firebase
Kotlin	React JS	AppCenter
Objective-C	React Native	Jest
Python	React Query	ESLint
Java	React Hooks	Prettier
Node JS	Flutter	TailwindCSS
Mongo DB	Next JS	Styled Comp.
Express	Redux	Sass/Scss
GCP	Zustand	UI/UX Design
AWS	Webpack	Figma
tRPC	Electron	Adobe XD
GraphQL	Android	Scrum/Kanban
Apollo Client	iOS	

## Languages

English	<b>Fluente/Avançado</b>
Portuguese	<b>Nativo/Fluent</b>

## Personal skills

- Adaptable
- Communicative
- Proactive
- Creative
- Teamwork
- Good leader
