## SOFTWARE ENGINEER

### ABOUT ME

I am a highly experienced **Front End** and **Mobile** developer with over 6 years of professional experience in the field. My main expertise revolves around JavaScript, web development and mobile applications.

Software development has always been a passion in my life. I started programming when I was 11 years and have been doing it so since then.

Throughout my career, I have gained solid and proven knowledge. I am ready to contribute to a dynamic and collaborative team, helping drive the company's success. I'm open to professional growth opportunities and eager to take on new challenges.

- Html

8 Years
- Css

8 Years
- React Js

6 Years
- Next JS

3 Years
- React Hooks

4 Years
- Redux

4 Years
- Zustand

1 Year
- GraphQL

2 Years
- Apollo Client

2 Years
- Designer UI

6 Years
- Styled Components

3 Years

#### BACK-END

- Node JS

4 Years
- MongoDB

3 Years
- Express

3 Years
- Cloud Functions

3 Year
- Fastify

1 Year

#### MOBILE

- Android

6 Years
- iOS

4 Years
- React Native

6 Years
- Flutter

2 Years

#### OTHERS

- GIT

6 Years
- GITHUB, GITLAB

6 Years
- Firebase

4 Years
- Microfrontends

4 Years
- Appcenter (CI/CD)

3 Years
- Jest

4 Years
- Typescript

3 Years
- Eslint

3 Years
- Prettier

3 Years

#### LANGUAGES

- Português

Native
- English

Fluent

### WORK EXPERIENCE

June/2023 - Jan/2024

#### Software Engineer

Sidea Tecnologia

- Responsible for developing mobile application using React Native, Java and Objective-C for managing crypto wallets. Use native languages such as Kotlin and objective-c to create native modules where within React Native there is a certain limitation. For example, feeding background microservices.
- I worked on Api development using NodeJS, PostgreSQL and Express to be run within the app, providing a better user experience using the Mobile-First strategy.
- Also responsible for CI/CD research and application in mobile applications using AppCenter and Actions within Bitbucket.

September/2021 - January/2023

#### Mobile IOS e Android Engineer

DevMaker

- Devmaker is a software house that builds customized systems for all kinds of businesses. Tasked with the development of mobile applications with Expo (React Naitive) and GraphQL for many clients in Brazil, such as Roit Bank, Ponto Mais, Rightee, and others.

- Building new systems using React Native (Expo)

- Doing maintenance work and building new features on existing systems using Javascript

- Creating beautiful interfaces in applications using Tailwind CSS as styles framework

March/2021 - August/2021

#### Mobile Engineer

CRP Technology

- In charge of building mobile apps for internal company purposes, using Flutter

- Building new features and providing maintenance using Dart.

January/2018 - January/2020

#### Software Programming monitor

Federal Institute of Education, Science and Technology of Sergipe

- While I was studying computer assembly, I was invited to teach programming to the other students in the institute. I could share my skills in web-development and website creation and test.

- In 2018, I joined the institute to be a student but I ended up being a monitor for other students and in parallel I did projects and presented code corrections with the professors.

### EDUCATIONAL BACKGROUND

**Prepara**, Av. Um, 665, Nossa Sra. do Socorro - SE, 49160-000 — Finished

Technical Course in Maintenance and Assembly of computers

**Federal Institute of Sergipe**, Rodovia BR 101, Km 96, s/n - Povoado Quissamã São Cristóvão - SE — *Finished*

High School With Technical Course In Computer Maintenance And Support.

### PERSONAL PROJECTS
